Faculty Coordinators

1. Prof. Kashyap Patel (Contact no: 9974196044)
2. Prof. Neeta Chudasama (Contact no: 9428972072)

Student Coordinators

1. Manasvi Vachhani (Student ID: 22DCE127, Contact no: 9998087570)
2. Aditya Makadiya (Student ID: 21CE054, Contact no: 9737932872)
3. Meet Gorasiya, (Student ID: 21DCE029, Contact no: 9313733943)
4. Dhairya Trivedi (Student ID: D22CE176, Contact no: 9824560207)
5. Crish Macwan (Student ID: 23DCE065, Contact no: 9773088475)

Event Description:

Our college is bringing the sensation of the hit series "Squid Game" to life with an adrenaline-pumping event. Join us for an action-packed experience that features three challenging rounds: "Human Node," "Tricky Lights," and "Twisted Snakes." Participants will be pushed to their limits as they navigate a world of competition, strategy, and entertainment. Can you outsmart your opponents, complete tasks under pressure, and emerge as a champion? Get ready to test your skill and courage in our thrilling Squid Game event!

Team Specification:

Individual participation.

Round 1: Teams of 4 members

Round 2 and 3: Individual

Note: Depending on number of participation received, number of rounds may be altered.

Task:

Task 1: Prepare teams of 4 members in the 1st Round.

Task 2: Select winners in each round.

Task 3: Final round who are selected from out of these.

General Rules and Regulations:

1. Every participant has to wear Shoes.
2. All of the players would receive numbers from us and this number would stick to their backs.
3. Decisions of the volunteers and coordinators are the final decision. Players cannot fight or do arguments on the ground with the coordinators or volunteers.
4. In round 1 (Human Node): Each team consists of four members. Participants can form their own teams or be assigned to one if needed. A team is eliminated if any member loses their grip on their teammates during the movement, or if they don't complete the challenge within the time limit. The first five teams to successfully fill their respective buckets to the required level win the round.
5. In round 2(Tricky Lights): Participants must complete the course while balancing on one leg. They are not allowed to touch the ground with their other leg. If a participant makes an incorrect move based on the light signals (e.g., moving on red), they are immediately eliminated from the round. To succeed, participants must navigate the entire course without making a wrong move.
6. In round 3(Twisted Snakes): Participants must complete the assigned tasks successfully before they can continue on the board. Participants may be eliminated if they fail to complete a task or reach a certain condition specified in the rules.

Rounds:

Round 1: Human Node - The Water-Filling Challenge

- In "Human Node," ten teams of four will face off in a unique twist.
- Teams will be in a human knot formation, with each member carrying two glasses of water.
- Their mission? To navigate to the opposite side of the field and fill a bucket to a marked level within 20 minutes.
- The first five teams to successfully complete this challenge emerge as the victors. Teamwork, coordination, and communication are key to conquering this round and claiming victory!

Round 2: Tricky Lights - One-Legged Challenge with a Twist

- Selected students from Round 1 will advance to "Tricky Lights," the second thrilling round of our Squid Game event.

- In this challenge, participants must navigate a path marked with three differently colored lights: red (stop), green (walk), and yellow (reverse). However, there's a catch – they must complete this course on one leg!
- The challenge will test both balance and wit as participants make their way through the maze of lights with precision.
- To add an extra layer of excitement, those who are caught making a wrong move will be eliminated from the game. Only those with the skill to maintain their balance while following the light signals will emerge victorious. Do you have the poise and agility to conquer the "Tricky Lights" round? It's time to find out!

Round 3: Twisted Snakes - The Maze of Tasks

- In the final round, "Twisted Snakes," the game takes a unique twist, inspired by the classic Snake and Ladders board game. Participants will traverse a life-sized Snake and Ladders board on the floor, but beware, the snakes are real obstacles!
- The goal is to navigate through the board and reach the finish line. However, if a participant land on a spot occupied by a snake, they will be faced with a series of challenging tasks. Completing these tasks is their only way to escape the clutches of the snake and continue their journey.
- This round tests not only your luck in the game but also your wit and skill in tackling the unexpected challenges thrown your way. Do you have what it takes to outsmart the snakes, complete the tasks, and reach the finish line before your competitors? The "Twisted Snakes" round promises to be a rollercoaster of surprises and excitement!

Event Rules:

1. Individuals have to form a team of four in round 1.
2. The event consists of three rounds.
3. First round will be a simple team game.
4. Second round is like red and green light
5. Third round is similar to snakes and ladders in real life.

Preferred Venue: Sports Ground; CHARUSAT
