Title of Non-Technical Event: Box Soccer

Brief:

A large rectangular area is marked, usually with cones or lines, to create a box. The size of the box can vary depending on the number of players and available space. Two teams are formed, and each team has players sitting inside the designated box. The number of players per team can vary but typically ranges from 3 to 5. The objective is to score goals by kicking the ball with your feet while remaining seated inside the box. Players can pass the ball to their teammates or attempt to shoot directly at the opponents' goal. The ball should remain on the ground during play. Box football offers a unique twist to the traditional game of soccer, as players have to adapt their playing style while seated. It can be a fun and entertaining activity, especially in situations where space or mobility is limited.

Rules:

1. Time limit is 150 seconds for individuals and 180 seconds for teams.
2. First come first serve will be followed for both individual and team players.
3. To ensure fair play, this should be followed, such as no standing up or leaving the box, no physical contact between players, and a limit on the number of touches per player.

Judging Criteria:

When a player successfully kicks the ball into the opponents' goal, it counts as a goal for their team. The team with the highest number of goals at the end of the game is declared the winner.

Fees: 100/-
